Benefits and Highlights

Earn money in a new sales channel that improves customer experience and satisfaction seamlessly merging **traditional hotel services with local partners offerings**.

MORE EXTRA SERVICES

Take advantage of being a local host and improve experience of guests offering them value unique for local businesses.

SEAMLESS ONLINE PAYMENTS

Provide guests with multiple methods of secure and convenient online payments or let them add the amount due to the hotel room bill.

SMART ORDER PROCESSING

Simplify the work of your employees by enabling them to monitor and control a detailed list of current guest orders along with their fulfillment status.

REMOTE ORDER VIA QR DIRECT

Make ordering and fulfillment process simple with QR DIRECT™ technology: place code in the hotel room and let guests do the rest.

SHOPPING WITHOUT AN APP

Downloading another mobile app by user is a serious entry barrier to most online services. Let guests order easily, directly from the browser.

EASY CONTROL OF STOCK LEVELS

Initiate order entry - from your guests into the system directly. Keep correct stock levels for the physical and online locations, thanks to the integration with Fablo API or simple XML file exchange after every order.

CONTACTLESS ORDERS

Eliminate unnecessary contacts and make your hotel safe and comfortable place in demanding pandemic times.

NEIGHBOURHOOD PARTNERS

Create additional stream of revenue inviting local partners to sell goods and services directly to hotel guests, under your strict control.

MULTIPLE LOCATIONS

Use one service and product feed for the whole network. Control performance of local orders in all locations with real-time reporting.
